FC Bayern is a company, but in the first instance it is a club with the membership at its core. With more than 270,000 members, FC Bayern is the biggest club in the world. From the earliest days, the club has met its responsibilities to the community by developing young talent and emphasising grassroots sport. This is by no means restricted to football. FC Bayern teams actively compete in basketball, handball, chess, veterans' football, sports skittles, table tennis and gymnastics, some at elite national levels. And with more than 100 referees, the club boasts Europe's biggest refereeing section. FC Bayern as a club is firmly anchored in grassroots sport.

Following on from the Grünwald Stadium and later the Olympic Stadium, the stunning ground in the north of Munich is the third home venue in Bayern's long Bundesliga

every season with all 71,000 available seats and standing places being sold out for 17 Bundesliga home games. Bayern's incredible attendance record invariably includes 68,000 full houses for European fixtures (the capacity is reduced by 3,000 in the al seat configuration). As a rule, shortly after the Bundesliga fixtures are announced the beginning of July, more than half of Bayern's league games in the Allianz Arena out at once. What brings the fans streaming to Fröttmaning in their tens of thousand The stars of the mighty Bayern Munich of course. But the fans can also expect to be looked after, both before and after the game. 6,000 m² of catering facilities take care of culinary requirements. Europe's biggest multi-storey car park provides nearly 10,000 parking spaces. Since May 2012 there has been another compelling reason for fans and families to flock to the stadium in droves: the FCB Erlebniswelt, housed at the Allianz Arena and already established as a must-see attraction for thousands of the five million visitors to Munich every year. Germany's biggest club museum tells the absorbing story of the club in an interactive installation covering more than 3,000 m².

The exhibition on Level 3 of the Allianz Arena features much more than countless fascinating exhibits, including trophies, and boots and shirts worn by Bayern greats past and present. The 113-year history of one of Europe's most famous and successful clubs is retold using an intoxicating blend of facts and infotainment, modern and emotionally moving, but at the same time entirely authentic. Trophies, cups and more than 500 exhibits are displayed using award-winning media technology and interactive
